Bestaand pomstation

The diagram shows a longitudinal profile of a sewer line. The vertical axis represents elevation, with a comparison level (Vergelijkingsvlak) of 70.00m T.A.W. (Mean Sea Level). The profile includes several vertical structures, likely manholes or inspection points, and a dashed line indicating the sewer line's elevation. A specific point is labeled 'Klein Bes WL nr 77'. A section of the profile is marked as 'Bestaand pomstation' (Existing pumping station).
